

Project Design Phase-II Data Flow Diagram & User Stories

Date	10 July 2026
Team ID	
Project Name	Virtual Agent–Driven SLA Breach Awareness & Justification System
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is

Example: [\(Simplified\)](#)

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
IT Support Agent	Incident Management	USN - 1	As an IT Support Agent, I can create a new incident so that customer issues are recorded.	Incident is created successfully with required details.	High	Sprint - 1
IT Support Agent	SLA Monitoring	USN - 2	As an IT Support Agent, I can view the SLA attached to an incident.	SLA is automatically attached after incident creation.	High	Sprint - 1
IT Support Agent	SLA Risk Detection	USN - 3	As an IT Support Agent, I receive an alert when SLA reaches 80% of its duration.	SLA At Risk becomes True and notification is displayed.	High	Sprint - 2
IT Support Agent	SLA Justification	USN - 4	As an IT Support Agent, I can provide a reason before an SLA breach occurs.	Justification is saved successfully.	High	Sprint - 2
Incident Manager	Incident Monitoring	USN - 5	As an Incident Manager, I can monitor incidents approaching SLA breach.	Dashboard displays all at-risk incidents.	High	Sprint - 2
Virtual Agent	Notification	USN - 6	As a Virtual Agent, I automatically notify users about SLA risks.	Notification is sent without manual intervention.	High	Sprint - 2
Incident Manager	Reporting	USN - 7	As an Incident Manager, I can generate SLA breach reports.	Reports display breach statistics correctly.	Medium	Sprint - 3
Administrator	Configuration	USN - 8	As an Administrator, I can configure SLA rules and thresholds.	SLA configuration is saved successfully.	Medium	Sprint - 3
Administrator	Dashboard	USN - 9	As an Administrator, I can view SLA performance dashboards.	Dashboard loads real-time SLA data.	Medium	Sprint - 3
Service Desk Manager	Performance Monitoring	USN - 10	As a Service Desk Manager, I can review SLA compliance trends for decision-making.	Monthly SLA reports are available.	Low	Sprint - 3
