

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	10 July 2026
Team ID	
Project Name	Virtual Agent–Driven SLA Breach Awareness & Justification System
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR - 1	Incident Management	Create Incident Update Incident View Incident Details
FR - 2	SLA Monitoring	Automatically Attach SLA Monitor SLA Progress Track SLA Remaining Time
FR - 3	SLA Disk Detection	Detect SLA At-Risk (80% Threshold) Automatically Set "SLA At Risk" Flag Display SLA Warning
FR - 4	Virtual Agent Notification	Send SLA Warning Notifications Remind Assigned Agent Notify Before SLA Breach
FR - 5	SLA Breach Justification	Capture Breach Reason Store Justification Validate Mandatory Fields
FR - 6	Dashboard & Reporting	Display SLA Status Dashboard Generate SLA Breach Reports Show SLA Compliance Statistics
FR - 7	Administration	Configure SLA Rules Configure Threshold Percentage Manage Notification Settings
FR - 8	User Access & Roles	Support Administrator, Incident Manager and IT Support Agent Roles

Non-functional Requirements:

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should provide a simple and user-friendly interface for managing incidents and SLAs.
NFR-2	Security	Only authorized users should be allowed to create, update, or manage incidents and SLA information.
NFR-3	Reliability	The system should continuously monitor SLAs and generate accurate notifications without interruption.
NFR-4	Performance	SLA monitoring, notifications, and dashboard updates should occur with minimal response time.

NFR-5	Availability	The application should be available during business hours with minimal downtime.
NFR-6	Scalability	The system should support increasing numbers of incidents, users, and SLA records without performance degradation.
NFR-7	Maintainability	SLA rules, notification templates, and workflows should be easy to modify and maintain.
NFR-8	Compatibility	The application should work correctly within the ServiceNow platform and support standard web browsers.
